Lady's Writing Desks

National is delighted to present a wide variety of styles of Lady's Writing Desks in a promotional price range. All are beautifully executed and finished on all sides so they can be used in any room position. They are made from fine selected Cherry veneers, except for the two labeled "Pembroke Mahogany", which are made with fine African Mahogany veneers. All drawers are sized for efficient use and they are made as deep as possible in every instance.

No.
150
Parma Group

Interesting detail has been combined with the basically simple, graceful lines of Italian Provincial design, in creating the No. 150 Parma Group. Gracious, enduring Cherry is the basic ingredient and on it National has applied a warm, hand rubbed "Milan Cherry" lacquer finish which, as you know, is beautiful and durable beyond compare. In addition, these pieces are offered in an enamel finish, Lombardy White and Gold. The entire selection of pieces is well proportioned so that you may have maximum utility and beauty for your prized bedroom.

As regards the manufacture of these high quality pieces, please note that the fully dustproofed mortise and tenon construction is very superior. This construction is standard throughout and it, along with top quality bracing and glue blocking, result in the achievement of maximum strength in each piece, which is so necessary for your long term satisfaction and enjoyment. All drawers are made with the best methods—boxed in construction, good dovetailing front and back, and each has National's own double runner center drawer guide which effectively eliminates slight side to side drawer movement, and of course, the possibility of marring the finish on posts or other adjacent members. All drawers are full depth and are individually fitted with the aid of self lubricated Raylex plastic to wood contact at every point needed to make each one glide smoothly. Furthermore, each drawer is equipped with a non tipping guide which keeps it level even when fully open. Your attention is invited to the bright, attractively finished drawer interiors made with Oak sides and Cherry drawer bottoms.

Top quality Raylex plastic glides are used on each post so that you can forget the danger of rust stains from glides when your beautiful carpets are cleaned. All mirrors used by National are plate glass and have the finest guaranteed copper backing. All the decorative moldings on this group are made of wood. Each case back is rabbeted in so that it is flush with the back posts. The beautiful Windsor Antique pulls give a final masterful touch of grace and beauty.

NO. 210 BRITTANY GROUP

The No. 210 Brittany Group's most outstanding design feature is its beautiful turned post with its strong Louis XVI influence. Basically, of course, this group is Italian Provincial. There is just enough Antique Brass decoration—the pulls, mirror borders and leg ferrules are quite natural touches of beauty—the outstanding brass decoration is the deeply etched collar at the top of each case post. The color which is so skillfully accented by brass is light, warm brown and carefully antiqued Biscay Cherry, a fine multistage hot lacquer finish with excellent clarity and depth. Brushed Chateau White and Gold is a perfectly gorgeous alternate finish in much demanded antiqued enamel with subtle gold trim. A pleasing combination results from using Biscay Cherry tops on Brushed Chateau White and Gold bases. Please note the beautiful wood decorative carving at top of the No. 211 Mirror—it has a rich appearance—and so do both beds in this fine group.

Precision construction throughout is quite evident and this is the reason National can pledge top notch service to you, the consumer. Completely dustproofed mortise and tenon construction, along with top quality bracing and glue blocking, result in the achievement of maximum strength in

each piece. All drawers are made with the best methods—boxed in construction, good dovetailing front and back, and each has National's own double runner center drawer guide which effectively eliminates slight side to side drawer movement, and of course, the possibility of marring the finish on posts or other adjacent members. All drawers are full depth and are individually fitted with the aid of self lubricated Raylex plastic to wood contact at every point needed to make each one glide smoothly. Furthermore, each drawer is equipped with a non tipping guide which keeps it level even when fully open. Your attention is invited to the bright, attractively finished drawer interiors made with Oak sides and Cherry drawer bottoms.

Top quality Raylex plastic glides are used on each post so that you can forget the danger of rust stains from glides when your beautiful carpets are cleaned. All mirrors used by National are plate glass and have the finest guaranteed copper backing. All the decorative moldings and carvings on this group are made of wood. Each case back is rabbeted in so that it is flush with the back posts. The Light Windsor Antique hardware is quite distinctive. National has every confidence that you will love this group from the moment you first see its beautiful hand rubbed perfection.

No. 650 Sienna Group

The No. 650 SIENNA GROUP'S outstandingly beautiful design is created in large measure by the use of heavy, yet graceful moldings and posts. Their combined effect is one of massiveness and a most desirable feeling of weight which is so frequently characteristic of the *Italian Provincial* design influence. There are five finishes offered on the basic Cherry wood. Namely, they are *Tuscan Cherry*, NATIONAL'S fine multistage hot lacquer finish, and four beautiful enamel finishes, *Rhone White and Gold*, *Powder Blue and Silver*, *Sorrento Yellow* and *Seafoam Decorated* (soft green). In addition, any of the enamel finishes is offered with *Tuscan Cherry* tops at slight additional cost.

The fine quality of this furniture is quickly apparent to the prospective purchaser due to the precision standards always followed at NATIONAL with regard to construction and finish. NATIONAL is always interested in consumers of its furniture being pleased. Maximum storage is important as regards any piece of furniture, and for this

reason, please note that NATIONAL always makes every drawer as deep and as wide as allowed by the design. Every drawer rides on plastic and has drawer leveling plastic guides at top, all made of long wearing Raylex plastic, which is so tough and so slick that it will never wear out due to normal use. This self lubricated plastic plus exceptionally careful hand fitting are the best insurance that all SIENNA drawers will consistently work smoothly and that the finished silky interiors will be ready at a touch to store your prettiest garments.

Every piece of SIENNA rests on Raylex plastic glides which eliminate any possibility of rust because of carpet cleaning or any type of moisture. The Mirrors used by NATIONAL are plate glass and have the finest guaranteed copper backing. All decorative moldings and carvings on this group are made of wood. We, at NATIONAL, have every confidence that owning this group will long be a source of tremendous pride and pleasure for you.

*The Rouen Group
in Lorraine Cherry
and Rhone White and Gold*

No. 762 Triple Dresser - 9 drawers
68 x 20 - H 33 in.

No. 762 Hanging Mirror
Plate 30 x 46 in. Overall 33 x 49 in.

The "Rouen Group" is beautiful French Provincial—designed with a delicate touch which will compliment beautifully any bedroom in your home, yet it is constructed so sturdily and with such careful craftsmanship that you are assured a lifetime of satisfactory service. "Lorraine Cherry" and "Rhone White and Gold" are the finishes on this group and both are nicely done so that the mood of your prized bedroom will be set quite differently depending on your choice of the wood or the enamel finish. Each piece is carefully hand blended and decorated in order to develop fully the beauty of its finish. Please note the excellent proportions of the group inasmuch as this factor received unusual care by the designer. Furthermore, the cubic capacity or actual storage room in these pieces is high because our drawers are always built to the maximum height and depth the dimensions of the case will allow. For instance, the 762 Triple Dresser has 9.5 net usable cubic feet of interior storage room, the 761 Double Dresser 7.8 net usable cubic feet, and the 760 Chest 7.8 net usable cubic feet. This is an excellent and important standard of comparison to which we invite your attention.

High quality is a constant byword in the National plant and this is your constant assurance of long satisfactory service. Enduring beauty, too, is uppermost in the minds of our craftsmen, and the constant care, which results, is our way of showing the interest we have in the attractiveness and usefulness of the furniture in your home.

The "Rouen Group" employs fully dustproofed mortise and tenon construction; in addition, all the component parts are engineered to be of such generous size and weight that this plus excellent bracing and glue blocking result in extraordinarily heavy cases of maximum strength and rigidity. Contributing further to the quality of this group are the boxed in constructed drawers with dovetailing in front and back. The drawers are properly center guided and the drawer interiors are attractively finished for beauty and service. The one piece case backs are firmly secured flush with back posts. Only the finest plate glass mirrors are used. The French pull is unusually simple and effective. We have every confidence that your interest in this design will never wane and that your pride in it will be a source of much pleasure.

*The Rouen Group in Lorraine Cherry
and Rhone White and Gold (as shown)*

NO. 850 LORENZO GROUP

The *Lorenzo* group is imaginatively bold in design but nevertheless it retains the exquisite, simple grace of real Italian Provincial furniture. It is made in genuine Cherry and this feature makes possible highly consistent reproduction of its especially created light, warm brown and skillfully accented Beccia Cherry finish. Beccia Cherry is NATIONAL's fine multistage lacquer which has wonderful clarity and depth. Careful hand rubbing produces its final state of satin perfection. Particular note the fine Cherry mitered wood mouldings on each drawer which add so delightfully to the appearance of this group and of course the intricate detail of each case post. The beds incorporate every desirable design feature and possess a rich appearance. Of interest to the decorative person is the optional use of colorful Battersea Ceramic pulls on the top drawers of all cases at slight additional cost and the optional use of dark green instead of Beccia Cherry finished pilasters on the No. 852 Hanging Mirror.

Completely in step with NATIONAL's policy of incorporating good new features when available, we are delighted to point out our use of self lubricated plastic to wood contact at all points needed to create truly gliding drawers. All drawers have a non tipping feature which keeps them level even when fully open. In addition, all drawers have NATIONAL's

newly developed double runner center drawer guide which effectively eliminates slight side to side drawer movement and thus protects the finish on posts and other adjacent members. Good quality plastic glides are used on each foot to prevent the possibility of rust stains on your carpet.

Precision construction throughout is quite evident and this is the reason NATIONAL can pledge long, satisfactory service. Fully dustproofed mortise and tenon construction and good quality bracing and glue blocking are the means by which maximum strength and rigidity are achieved. The drawers are top quality—they are made with boxed in construction, have excellent dovetailed joints at front and back, and have NATIONAL's newly designed center guides as previously described. The full depth drawers are individually fitted into place and we are proud to point out the bright, attractively finished interiors of Oak at the sides and Cherry bottoms. The case backs are firmly secured flush with the back posts. All mirrors are plate glass and have the finest guaranteed copper backing.

The heavily cast hardware on this group is finished in Hartford Antique, and it definitely produces a distinctive, beautiful group. The *Lorenzo* group promises to be among your most cherished furnishings.

SUITE NUMBER 875 in COMO CHERRY

Dramatic Classic Italian Provincial, as shown in these photographs, in your master bedroom or in a guest room will provide the setting for a beautiful, inviting interior. All exposed parts of this group are made of Genuine Cherry which is tops among the most desirable and fashionable furniture woods. Its especially created finish is Como Cherry, and of course, it is National's traditional high quality, hand rubbed lacquer.

The excellent variety of case sizes makes it easy to properly fit your bedroom. An important feature of these pieces, as well as all others made by National, is the fact that maximum storage capacity is always provided (i.e., all drawers are as deep as the cases will allow). Notice the new and different Powder Table arrangement—it is a notable accomplishment, for it provides more and better storage in addition to an extra large mirror. The excellent proportions of this group result from the loving care which is the hallmark of good design. Please notice particularly the attention which has been given the numerous decorative details. Confidently, we believe you will agree that the overall effect is outstanding.

The Salerno Group is precision constructed throughout. The extra built-in quality thus achieved is well worth your strong consideration, for it is in this manner that you are assured of superior service and personal satisfaction. Fully dustproofed mortise and tenon construction in conjunction with top quality bracing and glue blocking are the means by which maximum strength and rigidity are obtained. Contributing further to the quality of this group are the boxed-in constructed drawers, which have good dovetailing front and back. The drawers are properly center guided and their interiors are attractively finished. The case backs are firmly secured flush with the back posts. Only the finest plate glass mirrors and wood mouldings are used. Top quality hardware is necessary in order to accentuate its lavish beauty. National has taken every measure it can to make certain that the Salerno Group will be a delightful addition in your home.

No. 881 Double Headboard 6/6
Height Headboard 39 in.

No. 876 Night Tables, 3-dr.
24 x 16 - H 24 in.

The exploring settlers of our great land must have been continually fascinated at the beauty and the endless maze of bays and inlets which lace our eastern shores. From Boston to the tip of Florida, they found their way into these comfortable harbors of our land and established their everlasting influence upon the minds and hearts of men.

The very strength and character of their homes and furnishings gave testimony of the sincerity and honesty of most of these intrepid new colonists. They brought a fashion in home furnishings that would make an indelible impression on all Americans forever.

Any casual student of our domestic fashions may recognize that vigorous quality in the Albemarle Collection, so reminiscent of the life of these early settlers. This was the characteristic that later inspired our own American designers, John Goddard, William Savory, and countless others in their pursuit of the 18th Century cabinetmakers' art in America.

The Albemarle Collection, named for one of the most romantic of these gateways, Albemarle Sound, recalls the period of from 1700 to 1730 when, in the Carolinas and Virginia area particularly, there arrived in this country so much of that simple Queen Anne fashion.

Albemarle is bold; it is dramatic in its scale and simple ornamentation. Its hardware is dramatic and functional in its large scale and outstanding beauty. Its mahogany and elm veneers are of prime quality.

The Royal Windsor finish of this singular collection is superb in its warm amber tones, its gently distressed finish, the hand-padded color and soft patina of its surfaces.

The antique quality of the whole ensemble is enhanced by the modern, functional character of each piece.

Cases have plastic covered compartments for folded garments. There are shallow sliding trays, designed for modern usage; small jewelry drawers are handy for storing keepsakes and small articles.

The mirrors of the Albemarle Collection are of majestic scale and embellished with metal leaf frames against burled elm veneers.

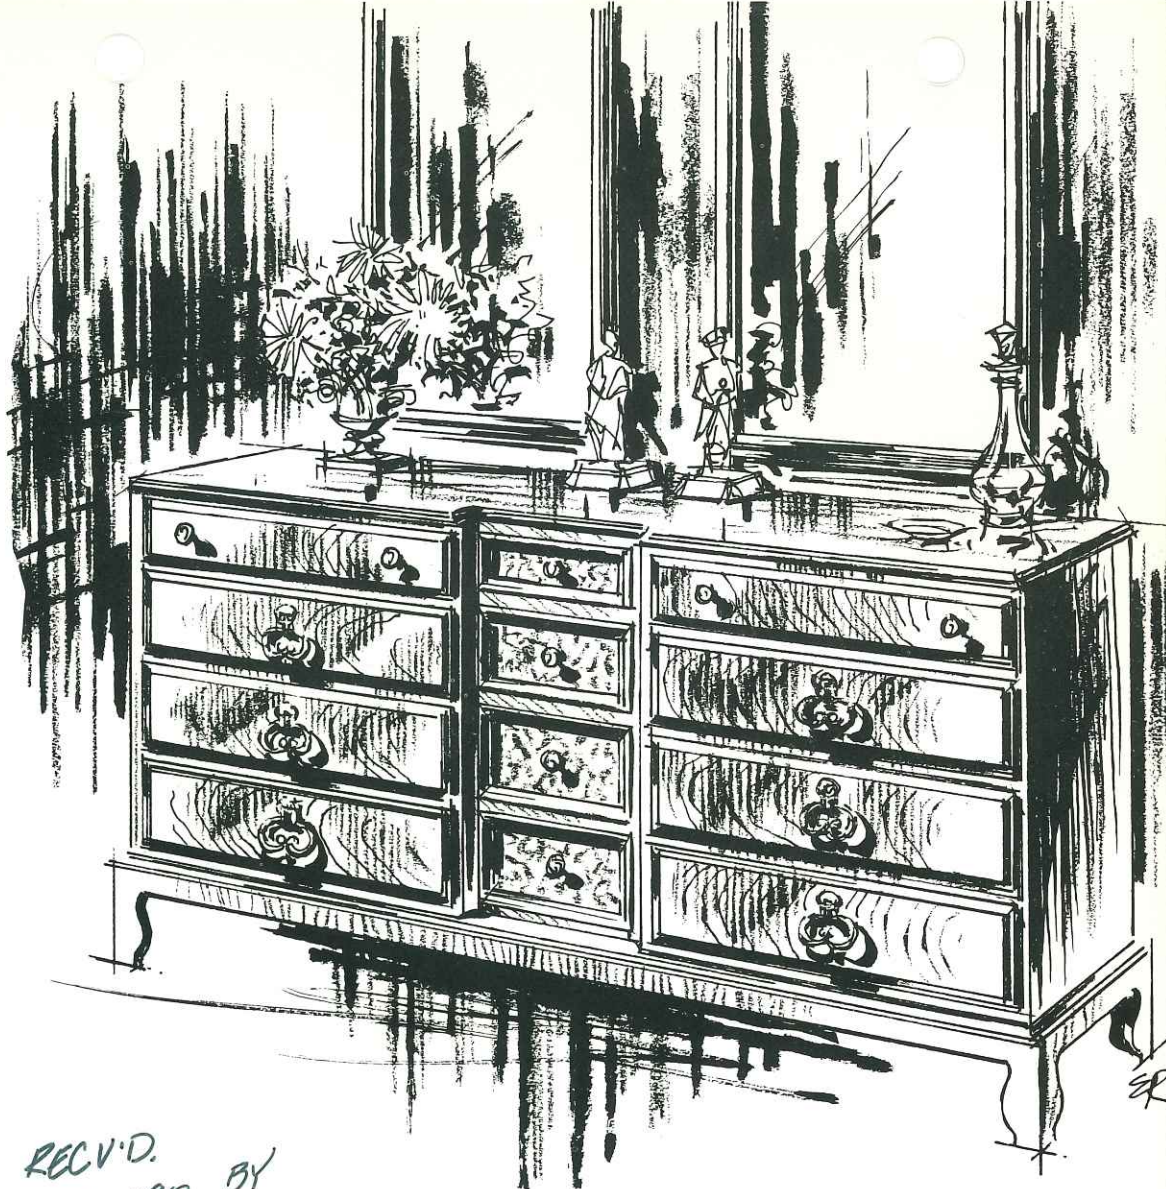

Many pieces of Albemarle are suited to multiple usage. The small chest, suitable for bedroom or living room, may also function as a dining room serving chest.

The low chest of drawers, and equally low cupboard, may be placed end to end on a long trestle base to be used beneath windows and can house hi-fi equipment as well.

The night table is ideal used in pairs as small cabinets to flank a living room fireplace.

The spirit of Albemarle is adaptable to nearly every aspect of American living and, as such, lends that comfortable and familiar look to the greatest number of American homes.

Its price, for its quality, makes Albemarle one of the most desirable collections on the market.

NO. 1050 WESTCHESTER GROUP

The color and finish on this No. 1050 "Westchester" Solid Cherry Early American group are magnificent. Brewster Cherry has a deep warm brown tone which is beautifully accented and lightly distressed but not at all dark. This perfectly gorgeous color with its hand rubbed flat lacquer sheen, the subtle shaping of the tops and the ogee feet and the cock bead moulding effect on each drawer are a strikingly delightful combination. Quickly apparent is the faithfulness of reproduction as well as the styling and sizing of every piece for modern day living. Outstanding value without compromise is also apparent in every one of this excellent variety of cases and beds. Bedrooms of any size may be completely and easily furnished with "Westchester" Solid Cherry.

Completely in step with NATIONAL'S policy of incorporating good new features when available, we are delighted to point out our use of self lubricated plastic to wood contact at all points needed to create truly gliding drawers. All drawers have a non tipping feature which keeps them level even when fully open. In addition, all drawers have NATIONAL'S newly developed double runner center drawer guide which effectively eliminates slight side to side drawer movement and thus protects the finish

on posts and other adjacent members. Good quality plastic glides are used on each foot to prevent the possibility of rust stains on your carpet.

Precision construction throughout is quite evident and this is the reason NATIONAL can pledge long, satisfactory service. Fully dustproofed mortise and tenon construction and good quality bracing and glue blocking are the means by which maximum strength and rigidity are achieved. The drawers are top quality—they are made with boxed in construction, have excellent dovetailed joints at front and back, and have NATIONAL'S newly designed center guides as previously described. The full depth drawers are individually fitted into place and we are proud to point out the bright, attractively finished interiors of Oak at the sides and Cherry bottoms. The case backs are firmly secured flush with the back posts. All mirrors are plate glass and have the finest guaranteed copper backing.

An outstanding Colonial pull, with real depth due to its being heavily cast, graces this group, and it is finished in sparkling Lancaster Antique, lightly specked. This final touch of beauty is real, honest assurance that the "Westchester" will give you that longed for, beautiful bedroom which will be cherished by you and your family through the years.

No. 2170 Toulon Group

This delightful "Toulon" French Provincial group of bedroom furniture is designed for gracious living. It is constructed basically of Cherry, especially selected for color and grain so as to fully express its inherent warmth, gaiety and refinement. Provence Cherry, National's newest fruitwood creation, complements the Cherry wood beautifully. In addition, this beautiful group is offered in smart Rhone White and Gold. Every piece is painstakingly hand rubbed or woiled to the perfection needed to fully develop the beauty of these finishes. Good proportion was a highly important factor in the creation of each of these pieces.

The Toulon Group is high quality throughout and this fact will result in long, satisfactory service for you. Its completely dustproofed mortise and tenon construction, along with top quality bracing and glue blocking, result in the achievement of maximum strength in each piece. All drawers are full depth and they are made with the best methods—boxed in construction, good dovetailing front and back, proper center guiding and interiors finished attractively for beauty and service.

Top quality Raylex plastic glides are used on each post so that you can forget the danger of rust stains from glides when your beautiful carpets are cleaned. All mirrors used by National are plate glass and have the finest guaranteed copper backing. All the decorative moldings and carvings on this group are made of wood. Each case back is rabbeted in so that it is flush with the back posts. The delicate Provincial Brass hardware and intricate carving detail bespeak the exacting standards met by the craftsmen who make this fine group.
